Notification of Non Human Subjects Research Determination

Date of Letter: 4/11/2023
Protocol Number/Submission Link: **IRB23-0326**
Type of Submission: New Study
Status: **Non Human Subjects Research/Not Engaged**
Principal Investigator: Marshini Chetty
Protocol Title: Protecting Student Privacy: Studying the Data Handling Practices of Online Education Platforms
Funding: There are no items to display

Determination Date: 4/11/2023

The above-referenced was determined not to constitute regulated human subjects research requiring review. No further human subjects research review is required by our office.

This determination was based on the following:

The study team will not Obtain information through intervention or interaction with the individual, and use, study, or analyze the information or obtain, use, study, analyze, or generate identifiable private information.

Please note that this determination does not release investigators from adhering to the ethical principles contained in The Belmont Report, or from determining whether there are other applicable laws, policies, processes, and procedures that apply to the project.

NOTE: Any change to the research (including the receipt of funding) may alter the above determination. Please contact our office for guidance before implementing any changes. If you need assistance, please contact the IRB office at sbs-irb@uchicago.edu

The current SBS IRB policies and procedures are available at <https://sbsirb.uchicago.edu/page/sbs-irb-policies-and-procedures>
